

# Caries Detection and Monitoring Record

(Universal)

Use RemoteView and connect to the PRO wirelessly to record the data into an electronic patient record. Activate the record by downloading from: [www.cariescan.com/remoterview](http://www.cariescan.com/remoterview)

Patient Name  ID Number  Date  Address

**NOTE**  
Cariescan PRO should be used to assess posterior (molar and premolar) teeth.

**Guidance**

Enter each score of examined site box at a location corresponding to the sensor position on site, as shown in the example:
